

Summer School

GCSE & A Level Courses

Expert tuition • Fun activities • Relaxed learning

Why Summer School?

With all the disruption to education from the pandemic, Summer School offers students the perfect opportunity for expert tuition to boost their confidence ahead of the new Academic Year.

Our balanced programme of learning and fun activities will allow students to catch up with their studies and enjoy the chance to socialise with each other.

Why Students Want Summer Holiday Revision?

Here are some of the top reasons that students decide to use some of their holiday for learning and revision.

- Opportunity to catch up as not feeling “on track” with studies
- Wishing to achieve high grades requirements for sixth form or university
- Feeling anxious about the next school year and exams
- Lacking in confidence or motivation
- Disappointing end of year exam results
- Getting ahead by filling any knowledge gaps,
- Giving a firm foundation for the next academic year

How Can Justin Craig Help?

Our five-day summer courses provide a relaxed yet stimulating learning environment. Courses are available at day and residential centres or online.

In addition to expert tuition every day, our residential courses offer a varied and fun activity programme.

We receive excellent feedback on our Summer School courses, with students telling us that they like:

- the mix of learning and fun, as well as the opportunity to make new friends
- being able to refresh and consolidate knowledge from the previous year
- getting focused help from expert tutors on their specific needs
- studying in small groups as it makes learning easier and more enjoyable
- getting practice, feedback and insights on past paper questions and exam technique

Welcome

Designed for current Years 10, 11 and 12 students, our Summer School courses are an excellent mix of learning and fun. With a wide range of subjects, course dates and centres, students can choose where and when they want to study.

Attending on a residential basis allows students to make friends and get the most out of the experience, enhancing their ability to learn.

Online Summer School allows students to benefit from the expert support of our tutors from any location.

All our Summer School courses are structured similarly with:

- five days of expert tuition, led by experienced yet friendly tutors
- teaching tailored to the learning needs of the individual students
- small class sizes (maximum 8) to facilitate learning and camaraderie
- a varied daily activity programme, suitable for all students
- some free time to relax with new friends and enjoy the centre’s facilities

Approach

Our priority is to ensure students receive the highest quality tuition, meeting their individual needs, whilst also enjoying the overall learning experience.

We do this by:

- ensuring tutors are aware of detailed student needs so they can adapt each course appropriately
- employing only the best tutors, with the knowledge and skills to create a vibrant, inclusive learning environment
- providing on-site pastoral care through our team of professional yet friendly Course Assistants, led by one of our highly experienced Course Directors. Online courses are also monitored by a Course Director.

Course formats vary slightly depending on the level, reflecting the different demands of A level and GCSE.

GCSE:

One day each of Physics, Chemistry, Biology, Maths and English.

A Level:

Five days focused on the student's chosen subject, building knowledge, skills and exam technique.

Leisure Time

In addition to academic tuition, Summer School includes an Activity Programme for residential students. This has been designed so that there is something for everyone, running every day after classes in late afternoon and early evening.

Activities vary from centre to centre but may include fun activities such as a BBQ,

campfire, film night or team games. We also offer students help and advice on other relevant topics such as student well-being or UCAS.

Outside the organised activities, all centres have outdoor space for students to enjoy, either for a game of football or just to relax with friends.

“*The Summer School course has given my daughter so much confidence and was thoroughly ‘worth it’. Apparently, her class had an assessment paper last week and she was the only one to finish the paper.*”

Our Centres

We offer a choice of three centres for Summer School, all of which are well located with good facilities and are easy to reach by car or public transport.

All Nations College and Denstone College offer accommodation in comfortable bedrooms with single or twin occupancy options. Appropriate Covid secure measures will be in place to ensure the comfort and safety of all students and staff.

All Nations College

All Nations College, near Ware, Hertfordshire, is set in 12 acres of beautiful grounds and woodland. As well as full access to the grounds and football field, students enjoy a supervised camp fire and BBQ at this centre.

Regent's University

Regent's University is in the heart of Regent's Park in central London. With 11 acres of private gardens, the estate is a secluded haven in which students can relax.

Denstone College

Denstone College, near Alton Towers, in rural Staffordshire, is a beautiful historic boarding school set in well kept grounds. Students will have access to the school's grounds and facilities, including a climbing wall and swimming pool.

“The tutors at Justin Craig Summer School helped me learn the key techniques I needed to know to get from a predicted grade of E to A. This wouldn't have been possible without Justin Craig.”

Why choose Justin Craig?

Every year hundreds of thousands of students struggle with the stresses and demands of GCSE or A levels. Those in the know choose Justin Craig to help - here's why:

- unrivalled track record for delivering results and reputation for excellence
- 40 years of experience, helping over 100,000 students
- consistently highly rated and recommended by students, teachers and parents
- the most extensive choice of subjects, course timings and centres in the UK

There's an extra benefit for students working towards their Gold Duke of Edinburgh's Award as Justin Craig is an Approved Activity Provider and Summer School qualifies for Gold Residential.

“

Delighted with the online Chemistry course my daughter did over the Summer, giving her a strong start to the new school year. It made a huge difference and she achieved an A grade in her school assessment in the first term of Sixth Form. The tutor was the best teacher she has ever had.
